

QUALITY POLICY

Dynamic Instruments specialises in the medium and low voltage instrumentation energy and power sector. This entails designing, supplying, manufacturing, and installation of low and medium voltage lighting, small power control instrumentation, fire detection, CCTV intercom systems, concrete core drilling and panel manufacturing.

Quality performance is one of the cornerstones of our company culture, and is considered a personal responsibility of all employees. To maintain quality performance of all business units at the highest level, the following aims are pursued:

- To fulfil or exceed Customer needs and expectations by delivering a quality service and product in a consistent and timely manner;
- To cultivate and maintain the commitment to continual improvement and communicate our goals and objectives to every employee;
- To promote a working environment where training and tools are provided for all work to proceed in a safe and efficient fashion;
- To furnish a system of procedures which are periodically reviewed to ensure the ability of all employees to perform their work efficiently.
- To maintain commitment to comply with the effectiveness of our ISO 9001:2008 Quality Management System

The above mentioned will be obtained through full commitment from top management down to all employees.

APPROVAL:

Gregory Roberts
Chief Executive Officer
