

SAFETY HEALTH & ENVIRONMENT (SHE) POLICY

Dynamic Instruments will as far as is reasonably practicable endeavor to safe guard all employees and the public against injury and diseases, as well as risks to safety; health & environment from all operations associated with our business.

The Company's Policy is to strive for the highest possible standards of safety and occupational hygiene and health. The company will as far as is reasonable, assist all employees in maintaining and improving the standards of safety and health in their work place, and to ensure that the proper and effective health and safety procedures are followed by all employees of the company.

Within the defined scope of our business activities, Dynamic Instruments is committed to:

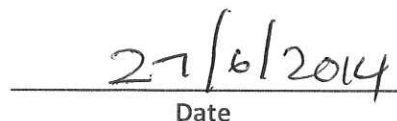

- Provide a safe and a healthy working environment
- Prevent injury and ill health
- Comply with applicable legal and other requirements to which we subscribe that relates to SHE hazards, and environmental aspects.
- Set and continually review our Environmental, Health and Safety objectives and targets
- Document, implement and maintain our SHE policy
- Communicate our SHE policy to all persons working for or under the control of or on behalf of Dynamic Instruments
- Ensure that our SHE policy is understood by all and their SHE obligations
- Make our SHE policy available to all interested and affected parties.
- Continually improve and prevent environmental pollution
- Continually improve the effectiveness of our SHE management system and its performance
- To ensuring continuing suitability, by periodically reviewing and maintaining our SHE policy and objectives to ensure it remains relevant and appropriate to Dynamic Instruments

Dynamic Instruments SHE Department shall review this policy biennial, or earlier should the need arise.

APPROVAL:

Gregory Roberts
